To whom it may concern

**Preston LUF bid: Active Preston-Transforming our Community Infrastructure:  
S.106 Match Funding**

The City Council has identified match funding from various sources to support the delivery of its LUF project. One of these sources is developer S106. planning contribution monies and I can confirm that £700k of s.106 monies has been secured to support the delivery of the parks element of the LUF project comprising:

- £100k which is secured for Waverley Park and held on the Council's balance sheet. Upon LUF funding confirmation the Council will allocate this receipt to the scheme.
- £600k which is secured for the park's element of our LUF project, subject to drawdown timescales and internal processes. Upon confirmation of LUF funding and Football Foundation funding, PCC will seek appropriate approval regarding a Sports Facilities contribution notice.

Yours sincerely

**Chris Hayward**  
Director of Development
